

Myers is where agents become investors.

One identity, one look, every post. Consistency is the strategy:
repeated identical assets are what make a brand recognizable at a glance.

TYPOGRAPHY

Inter — the only typeface, everywhere.

900 Headlines (SOLD!, FOR SALE) — gold or ink

700–800 Names, labels, letterspaced KICKERS

400–600 Sublines, captions, footers

White background always. Weight creates hierarchy,
never a second font.

VOICE (FROM THE BRAND CHARTER)

Owner language: agents build, close, own, invest.

Numbers over adjectives. Under 300 words.

Confident, playful — never corporate, never desperate.

CTAs: DM "DEAL" · "INFO" · "MODEL".

NEVER SAY

"Highest commission in the industry" · "Guaranteed"

Income claims without a real check · "Biggest pipeline"

Off-MLS deals are OFF MARKET — never "on the market".

LAYOUT SYSTEM (PER 1080PX WIDTH)

64px margins on all sides

Header: logo top-left (78px) + gold kicker top-right
+ 3px gold rule below

Photo cards: 24px radius, 3px gold border

Badges: gold pill, white letterspaced caps, LEFT-aligned
(BEFORE badge: charcoal with light-gold text)

Info bands: gold, value/label cells, inside photo bottom

Footer: thin rule + gray brand line — or agent contact
(phone left · email right · website centered) on
achievement posts

SIGNATURE MOVES

Agent name in GOLD, curved around the headshot,
"AGENT & INVESTOR" arc beneath it

The address in heavy 900 — the address is the proof

Achievement first: SOLD! / CLOSED! top-centered

Gold confetti — achievement + welcome posts ONLY
(never on listings)

Faces on every people-post; property on every deal-post

SIZES

Facebook · Instagram feed — 1080×1350 (default)

LinkedIn — 1080×1080

Story · Reels — 1080×1920

ENFORCEMENT

Make every post with the Templates generators —
they cannot produce an off-brand graphic.

Retire pre-system graphics. One rogue post costs
a week of recognition-building.

Ratify the Brand Charter (it is still marked DRAFT).
